

GENERAL DIRECTORATE OF VOCATIONAL AND TECHNICAL EDUCATION

ANKARA

Our school named Kayseri Organized Industrial Zone Vocational and Technical Education Center (OSB METEM TR) participated the European Union Project called Mobility of Wood Workers (joiners/carpenters) Across Europe and empowered by AIDIMA that is a prestigious Spanish Technology Institution in the period of proposal calls in 2014. The project was accepted by the Spanish National Agency. The project started 10.10.2014 and is going to finish 10.10.2017.

Our project bases on a comprehensive study method embracing the vigorous collaboration between European Union Countries and Turkey and prioritizes research and compilation process. An original and eclectic educational curriculum of vocational and technical training will be shaped and ready to use both in our country and Europe within the framework of eclectically compiling the practices peculiar to each partner countries. We have held our first and second international meetings. Belgium, Turkey, Netherland and Spain will host the subsequent meetings. In the end, we aim to have a job profile and educational curriculum that are in sheer conformity with the European norms and focused on innovative and holistic viewpoint. They will also address the needs and priorities of the furniture sector.

We, as Kayseri Organized Industrial Zone Technical and Educational High School that is the most innovative and modern representative of Technical Education Institutions, have been making contributions in the meetings led by AIDIMA that is the project coordinator and the most prestigious technology company of Spain.

In the countries that we have visited within the framework of the project, we have observed and investigated the practices related to Furniture and Interior Design Department. Also, we have exchanged information.

In the due course of our project, we will keep notifying the General Directorate of Vocational Education. We deem that the outcomes of the project will give significant contributions to the vocational and technical training in our country.
